NOVEMBER 2024

## New Health Department & Budget Approval

The Brownwood/Brown County Health Department's new location is now open! With the high demand for public health services, the City of Brownwood fully renovated a 13,400 square foot space to adequately serve the needs of residents and the services they seek. What does it mean for the Brown County MRC? We will have a spacious conference room for meetings and most trainings.

The City of Brownwood and Brown County have approved their new 2025 fiscal year budget. This gives the Health Department the opportunity to provide additional funds for the MRC. We can now provide light meals and refreshments at the bi-monthly and lunch meetings, along with our plans for a Volunteer Appreciation dinner and Christmas party. More information will be provided at our bi-monthly meeting this month.

## Congratulations White Level Volunteers!

We would like to recognize and show our utmost appreciation to our MRC volunteers, Wendi Ortega and Melissa Trigg for the completion of all required trainings and participation with the Brown County Medical Reserve Corps for White Level. White Level is the highest tier to accomplish. It takes dedication and time to compete all levels.
